Important!

1. **The assessment rules for RPA projects are designed to cover the diversity and particularities of RPA project areas.**
2. **The grading allows each RPA Project to get to maximum the grade (10).**

Assessment rules:

A) [6 points] Development

(1) **[4 points]** solution implementation:

(a) **[2 point]** project overview (layered architecture, REF-based structure, or similar; use of best practice rules);

(b) **[1 point]** proper use of various RPA development capabilities available in UiPath Studio (custom activities, dynamic selectors, etc.);

(c) **[1 point]** business exceptions handling (at least 2 exceptions);

(2) **[1 points]** automation project documentation, i.e., Process Definition Document (PDD) and Solution Design Document (SDD) - *use the template provided by the course teacher; the sections to be filled out will be discussed together with the project mentor;*

(3) **[1 point]** task achievement as discussed with/suggested by the mentor.

B) [4 points] Project Presentation

(1) **[1 point]** Overall project presentation with emphasis on the automation benefits;

(2) **[1 point]** Provide arguments for the implementation decisions;

(3) **[1 point]** Demo (2-3 scenarios, at least 1 scenario includes business exceptions);

(4) **[1 point]** Provide answers to questions (at the end of the presentation).
